

Female Grey & White Tabby Needs New Home

Please meet Sprite, a 7 year old grey and white female tabby born to a feral mother from Lake Stevens.

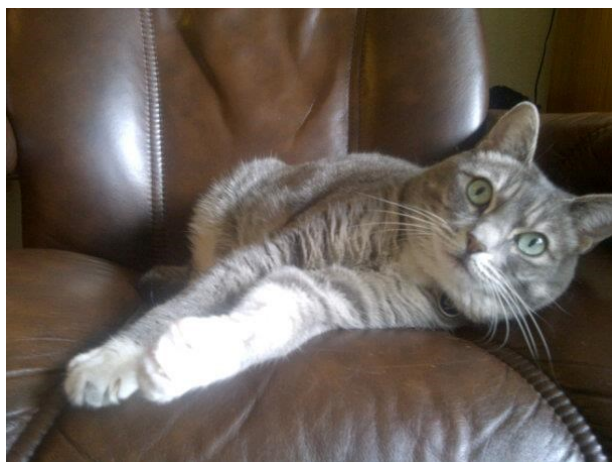

She loves people, toy mice, small balls of string of and other fuzzy things. She loves to chase feather toys, and is quite the acrobat. She also likes lounging in a sunbeam, sleeping on the bed covers, and cuddling with dogs.

She was raised with an Italian Greyhound and two other cats. She was recently re-homed, was not a good fit with the resident cat but got along with the dog, so now needs a new forever home that doesn't include another cat. Polite dogs and kids would be fine.

She is an indoor-only cat.

New home needed due to out of state relocation, and I can't take her with.
